

CLASS A

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.
- 2. 4.0 mg/l or less iron and 0.1 mg/l or less manganese.
- 3. 2.0 mg/l or less copper and 1.0 mg/l or less lead.

CLASS B

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.
- 2. 4.0 mg/l or less iron and 0.1 mg/l or less manganese.
- 3. 2.0 mg/l or less copper and 1.0 mg/l or less lead.

CLASS C

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.

CLASS D (SPECIAL USE)

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.

CLASS E

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.
- 2. 4.0 mg/l or less iron and 0.1 mg/l or less manganese.
- 3. 2.0 mg/l or less copper and 1.0 mg/l or less lead.

CLASS F (SPECIAL USE)

- 1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.
- 2. 4.0 mg/l or less iron and 0.1 mg/l or less manganese.
- 3. 2.0 mg/l or less copper and 1.0 mg/l or less lead.

CLASS G (SPECIAL USE)
1. 0.5% or less in total dissolved solids (TDS) and 0.1% or less in total hardness.
